

"YOUR INNER MILLIONAIRE"

Inspiration - considerations - humor - solutions - viability

For me, wealth comes from within. As a severely visually impaired entrepreneur, I share my life story where nothing is impossible, where there are always solutions and where there is always help available. Join me on a journey filled with joy, challenges and madness that paves the way for both laughter and enriching thoughts.

I want to inspire you to find your inner assets - YOUR INNER MILLIONAIRE!

"To be a force for good"

Peder Tennek –

Entrepreneur, lecturer, innovator, mentor, artist and a lot more ...

We all have lots of assets within us! A golden treasure of many times untapped or undiscovered capacities that can make a big difference in feeling joy, harmony and love in life.

As a severely visually impaired entrepreneur, I have many, good experiences that I am happy to share with you. Following my heart has been important to me and in almost 40 years as an entrepreneur, I have encountered lots of challenges in different areas.

Finding solutions and seeing opportunities instead of problems has been a matter of course for me, but it's a choice. I know that there are many who have not had the same support from home during their childhood or have other things that limit, just as well I know that there are many who have all the opportunities in the world but do not want or believe they can. If I can inspire just ONE person during a lecture, to take care of themselves in life and follow their heart, then that is enough for me.

I look forward with great pleasure to meeting you and those I will be lecturing to.

With love./Peder

The lecture – "Your inner millionaire"

How much do our thoughts influence our actions and what can we do about it?

In my lecture, I touch on different topics and areas:

1. Treatment
2. Attitudes
3. Mind-set
4. Fears
5. Believing in yourself
6. Follow your heart
7. Leadership
8. Personal development
9. Entertaining stories and experiences as a visually impaired person

My lecture can be adapted and adjusted as desired and can also be done as a workshop or seminar.

Lecture approx. 40-60 minutes

Seminar/Workshop 1-3 hours or as desired.

Please contact the agent for price and quote.

References and satisfied customers

Peder Tennek participated as a lecturer at LVI-dagarna 2024, our annual conference for people in the vision industry.

Peder gave a fantastic inspirational lecture, "Your inner millionaire", where he talked about how he does not let his visual impairment control his life. Peder pointed out the importance of having a positive mindset, seeing challenges instead of problems and how important it is to feel joy and gratitude for what you actually have instead of focusing on what you don't have. These thought-provoking words could all of us as listeners take to heart and be inspired by in different areas. The lecture gave a number of insights and I was so impressed by Peder's way of daring, not letting himself be limited but always thinking positively and forward to find solutions. Peder was also easy to listen to and it is noticeable that he is an experienced lecturer. Many thanks Peder for helping to brighten up our LVI days!

Maria Andersson / LVI Low Vision International

"To stand on stage on a rough autumn morning in Stockholm in front of over 500 expectant managers, requires courage and commitment. With the passion for life and the curiosity to cope with both everyday life and bigger adventures, Peder Tennek invited us on a journey based on his personal experiences of being given changed conditions early in life. Conditions that have created opportunities. To be inspired and forced to think that everything is possible is a bit like riding a roller coaster. I still suffer from sweaty hands and slight nausea when I think about the thought that my future co-workers might be one of those with different conditions than me. And maybe I have to dare to think that the impossible will be possible in order to be truly successful. Here will be more demanded of me than I have delivered before but, it is possible, Peder has taught me. Thank you!"

Malin Larsson, Chairman of the Association of Managers and Leaders

"At Capio Medocular we meet people on a daily basis who have problems with their eyes/vision. Incredibly inspiring to hear Peder Tennek, who is visually impaired himself, talk about how "nothing is impossible" and that it is you as an individual who decides what attitude you should have in all different situations. The lecture has inspired us both in our daily private lives and in our contact with our patients."

Malin Westerberg, Head of Unit, Capio Medocular Stockholm

Peder, you were very appreciated as a lecturer with high scores on our evaluation;

- spreader of joy
 - positive thinking
 - Nothing is impossible as long as the will is there
 - actively train the brain to see possibilities, i.e. change the angle of approach
 - awareness that we surround ourselves with energy thieves and how it affects us
- The strength of your lecture is that you have concretely practiced this based on your situation."

Gunnel Hansson, Licensed Biomedical Analyst and Clinic Teacher Skåne University Healthcare Lund BFC, Clinical Physiology and Nuclear Medicine
